

# Structured models with time delays\*

Wendi Wang

*Key Laboratory of Eco-environments in Three Gorges Reservoir Region,  
School of Mathematics and Statistics, Southwest University, Chongqing 400715, PR China*

**Abstract:** In this talk, I first introduce some structured models with time delays in epidemiology. Then I will present mathematical techniques for the local stability and global stability of equilibria in these models. After that, I will talk about the formulation and computation of the basic reproduction numbers of the models.
